To Whom It May Concern

I would like take this opportunity to express my gratitude to **Prime Construction and Trading Co. Ltd** for the hard work and dedication in making the fit-up work of the Sale Gallery and Show Units at Empire City a success.

I am impressed with the commitment and effort of the team throughout the process. The submissions of the work schedule, shop drawings and procurement were well prepared and in good details. Throughout the work progress, they had demonstrated their ability to overcome challenges of the complicated detailing and working within the confined areas. Despite the time constraint, they were able to complete the fit-up work within the stipulated timeline. Whist this is the first project with Empire City, I am confident that it will not be the last to work together with Prime Construction in the future.

I would like again to express my appreciation for the hard work they had accomplished and were grateful for the job well done. I will not hesitate to recommend to my colleagues and other industry partners whom I meet.

Yours Sincerely,

Sim Kim Hui
Project Director
Empire City
