

CONSUL

AUSTRALIAN CONSULATE GENERAL
HO CHI MINH CITY

7 March 2013

To Whom It May Concern

This letter confirms that Prime Construction & Trading Co., Ltd was successfully selected by the Australian Government through a public tender process in 2011, for a three thousand square metre office construction and fit out for the Australian Consulate-General's new offices in Ho Chi Minh City.

As the main contractor, Prime Construction was responsible for all aspects of the project which, due to the nature of the Consulate's operations, included some very technical and difficult construction requirements which were successfully addressed.

The Australian Government prescribed a very short project completion time, which Prime Construction successfully achieved, whilst maintaining a high standard of workmanship and quality.

Prime Construction demonstrated a high level of professionalism and respect, especially when dealing with the multiple Australian Government representatives and the Australian Government's work health and safety requirements throughout the construction process.

Since completion of the initial project, Prime Constructions has become the major contractor used by the Australian Consulate-General for all building and property related works both at the Consulate and at the Consul General's residence.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Richard Waller'.

Richard Waller
Consul & Senior Administration Officer
