**NEW ZEALAND EMBASSY, HA NOI: OFFICE FITOUT PROJECT**

The New Zealand Embassy in Ha Noi, selected and contracted Prime Construction & Trading Company Limited to undertake an office fit-out project between February and May 2002.

Completion of this project was time sensitive and there were particular elements of the fit out which were non-standard or were specific to diplomatic mission requirements. Prime also faced several work restrictions that limited the times when work could be undertaken, so as to avoid disrupting other tenants.

The New Zealand Embassy is pleased with the results achieved by Prime and with the standard of organisation and workmanship they provided. The work was completed on schedule and with no cost overruns.

We would be happy to recommend Prime Construction and Trading Company Limited as a competitive company, worthy of consideration by other companies and organisations who are seeking office fit out work to be undertaken.

Yours sincerely

  
Grant Traill  
for Ambassador
