

*Consolato Generale d'Italia  
Ho Chi Minh City*

12 February 2015

**To whom it may concern**

This letter confirms that Prime Construction & Trading Company Limited was successfully selected by the Consulate General of Italy in Ho Chi Minh City through a public tender process for fitting out the new office of 311 square meters located in President Place Building, District 1.

Prime Construction and Trading Co., Ltd was responsible for completing the fit-out works which required a very high standard of finishes and high-tech materials following a modern Italian design and special requirements related to the LEED GOLD building Certification (Leadership on Energy and Environment).

Being prescribed a very short completion time and strict international standard of requirements, Prime Construction completed and delivered the overall project in due time, supplying and installing effectively all the components. Prime team demonstrated professionalism and flexibility, including in solving unforeseen problems on site, in coordination with other professional advisers and consultants involved in the project. The previous experience of Prime Construction and Trading Co. in the fit-out of diplomatic offices was also positively evaluated and turned out to be an asset.

We therefore would like to recommend Prime Construction and Trading Co. as potential company to any other organizations and companies seeking for a reliable fit out contractor.

This letter is given to PRIME Construction Co. Ltd for the use in relation to its bidding of construction tenders only and shall not be used for any other purpose.

Yours sincerely,

**Carlotta Colli  
Consul General**
